## EXPERIENCE

### FRONTEND DEVELOPER June 2021 – Present | Remote

- Developed and maintained dynamic, responsive web applications using React.js and Redux Toolkit.
- Integrated REST APIs to create seamless communication between the frontend and backend.
- Designed user-friendly interfaces following modern UI/UX principles, collaborating with designers to implement Figma designs.
- Conducted code reviews and participated in technical discussions to maintain high-quality standards.
- Enhanced user experience through efficient state management and performance optimizations.

### HAJJ APP (IN PROGRESS) November 2024 – Present | Remote

- Contributing to a comprehensive Hajj management platform to streamline pilgrim services.
- Implementing features like itinerary planning, real-time updates, and user-friendly navigation.

## PROJECTS

### SLIDE - INSTAGRAM AUTOMATION APP

- Built a chat automation application inspired by ManyChat, tailored for Instagram users.
- Integrated Instagram API to enable automated message responses, user engagement, and streamlined communication workflows.
- Designed and implemented automation sequences to enhance user interaction and improve conversion rates.
- Created a responsive and visually appealing interface using Tailwind CSS for seamless user experience.
- Leveraged Next.js and TypeScript for efficient development and maintainable code structure.
- Ensured security, scalability, and real-time performance of the application for handling automation tasks.
- **Tools & Tech:** Next.js, TypeScript, Tailwind CSS, MongoDB, Instagram API.

### E-COMMERCE APP

- Built a fully functional e-commerce platform with features like product search, cart management, and payment processing.
- **Tools & Tech:** React.js, Redux Toolkit, Node.js, MongoDB.

### LIBRARY MANAGEMENT APP

- Designed a library management system with features like book checkout, return, and search functionality.
- Incorporated an image slider for showcasing the latest books and utilized Redux for efficient state management.
- **Tools & Tech:** React.js, Redux Toolkit, Node.js, MongoDB.

## SKILLS

### PROGRAMMING

JavaScript • TypeScript • C • C++

### LIBRARIES/Frameworks

React.js • Node.js • Next.js • Express • Redux

### TOOLS/PLATFORMS

Git • Firebase • Postman • PostgreSQL • MongoDB • Figma • Photoshop

### DEPLOYMENT

Vercel

## EDUCATION

### IGNOU UNIVERSITY

BA IN ENGLISH

June 2021 – December 2024

BCA (DISTANCE)

June 2023 – Present

## COURSEWORK

- The Complete Web Development Bootcamp
- Harvard CS50 – Full Computer Science University Course

## LANGUAGES

- English (Intermediate)
- Malayalam (Native)
- Hindi (Basic)
- Arabic (Basic)
